---

## Skills

---

### Technical Skills:

PHP	The very interesting language I used it in the work of the graduate in addition to some other things
Laravel	I learn this framework, especially the version 5.8, I still learn it
MySQL,	I use the MySQL database in my projects this is the easy way to
WordPress,	I had a simple experience in WordPress that I used in project work at the college
Bootstrap4	I use bootstrap in my work as it helps me Well
HTML5	The basis of web pages generally should be used in building any website
Css3	It is used in website format where colors are added and font sizes are controlled.
JavaScript	I've done a lot of work with this language that it's really cool and used with client-side

### Personal Skills:

- Time Management
- Listening
- Working in Team

### Soft Skills:

- Clarity
- Confidence
- Respect
- Empathy

---

## Languages

---

English: Intermediate
